Creator:	Wank Adams Slavin Associates
Creator:	Reed & Stem
Creator:	Fellheimer & Wagner
Title:	Wank Adams Slavin Associates records
ID:	11553639
Date [inclusive]:	1913-2006
Date [bulk]:	1920-1975
Physical Description:	4 document boxes
Physical Description:	2 manuscript boxes
Physical Description:	7 print boxes
Physical Description:	6 bound volumes
Language of the Material:	English .
Abstract:	<p>Wank Adams Slavin Associates was an American architecture firm that grew out of Reed & Stem (1889-1923) and Fellheimer & Wagner (1923-1961). Both early firms were known for their work with train station design; Reed & Stem won the commission for Grand Central Terminal, and Fellheimer & Wagner specialized in Art Deco and Beaux-Arts train stations. However, Fellheimer & Wagner also expanded into financial institutions, educational complexes, housing facilities, and laboratories. This would continue to expand under the leadership of Roland Wank with Wank Adams Slavin Associates. Relationships between firm partners and government institutions were also an important source for commissions. The firm has been active as WASA Studio since 2005.</p>

Preferred Citation

Wank Adams Slavin Associates records, 1913-2006, (bulk 1920-1975). Dept. of Drawings & Archives, Avery Architectural and Fine Arts Library. Columbia University, New York, N.Y.

[^ Return to Table of Contents](#)

History

REED & STEM (1889-1923)

[^ Return to Table of Contents](#)

History

Reed & Stem was primarily an architecture firm for railroad stations. Charles A. Reed (1858-1911) and Allen H. Stem (1856-1931) were originally based in St. Paul, Minnesota and completed projects for the Great Northern, the Northern Pacific, the Great Western, the Michigan Central, and the Norfolk & Western Railroads; completing over a hundred stations over their thirty year practice. After winning the commission for Grand Central Terminal, the firm relocated to New York. This would be their final project together, due to the death of Reed in 1911 at the age of 54.

[^ Return to Table of Contents](#)

History

Following the death of Reed, the firm briefly became Stem & Fellheimer, incorporating Alfred T. Fellheimer (1875-1959), who was an assistant for Grand Central Terminal, as a partner.

[^ Return to Table of Contents](#)

History

FELLHEIMER & WAGNER (1923-1961)

[^ Return to Table of Contents](#)

History

By the 1920s, Alfred T. Fellheimer joined Steward Wagner (1886-1958) to create Fellheimer & Wagner. The firm continued to work on a number of train stations, yet this collection begins to illustrate the breadth of the projects in which they were involved, including financial institutions, government projects, educational facilities, and housing.

[^ Return to Table of Contents](#)

History

Wagner was also involved with a number of WPA projects regarding housing, which is reflected in the work of the firm in the 1930s; particularly in the Arthurdale Homestead project in West Virginia. In the 1940s and 50s the firm briefly became Fellheimer, Wagner & Vollmer, with the addition of Carl Vollmer. The projects that his name is attached to are generally large-scale housing projects.

[^ Return to Table of Contents](#)

History

Roland A. Wank studied at the Technical University of Brno, Czechoslovakia, where his studies focused on Modern architecture. He joined Fellheimer & Wagner briefly from 1927-1933, and again in 1945 as a partner. In the interim he was head architect of the Tennessee Valley Authority and designed a number of dams and their associated facilities.

[^ Return to Table of Contents](#)

History

WANK ADAMS SLAVIN ASSOCIATES (1961-1986)

[^ Return to Table of Contents](#)

History

Roland A. Wank (1898-1970) continued the firm with partners Frederick W. Adams and William Slavin, officially changing the name in 1961. The firm continued to work on government infrastructure projects and laboratories, with many projects for universities and manufacturing companies.

[^ Return to Table of Contents](#)

History

WASA (1986-2005) WASA STUDIO (2005-2015)

[^ Return to Table of Contents](#)

History

Since 1986 the firm has continued as an architecture and engineering firm. The addition of preservation projects to the firm's work resulted in their involvement with the restoration of Frank Lloyd Wright's Fallingwater in Mill Run, Pennsylvania. Beyond architectural design, engineering and preservation, the firm also offers interior design and sustainable design services.

[^ Return to Table of Contents](#)

Scope and Content

[Collection I \(1982.005\)](#)

[^ Return to Table of Contents](#)

Scope and Content

Donated in 1982, this first accession consists of 1,315 architectural drawings of railroad stations in the United States and Canada created when the firm was known as Fellheimer & Wagner. Included are drawings for the Union Passenger Station in Macon, Ga. (1915); the State Street Station in Chicago, Ill. (1924); the Passenger Station in South Bend, Ind. (1927); the Kentucky and Indiana Railroad Terminal in Louisville, Ky. (1928); the Springfield Union Station in Springfield, Mass. (1924); the New York Central Rail Road Buffalo & East Buffalo Terminal Improvement Passenger Station and Curtis Street Passenger Station in Buffalo, NY (1927-1928); the Cincinnati Terminal in Cincinnati, Ohio (1930-1931); the Passenger Station in Elyria, Ohio (1924); the Erie Passenger Station in Erie, Penn. (1928-1931); and the Toronto-Hamilton & Buffalo Railway Company in Hamilton, Ont., Canada (1931).

[^ Return to Table of Contents](#)

Scope and Content

[Collection II \(2015.004\)](#)

[^ Return to Table of Contents](#)

Scope and Content

Donated in 2015, this second accession is arranged chronologically and divided by firm. Undated material has been listed alphabetically at the end of each firm's time period when it is clear that the material appears to be affiliated with a particular firm or era.

[^ Return to Table of Contents](#)

Scope and Content

This collection is fairly limited in scope, with only 147 items covering 93 years of a very prolific firm's history. The material is focused on the professional, with very little regarding the partners of the firm, their clients, or the design process. Instead the bulk of the collection consists of publications for proposed projects and photo albums of projects under construction.

[^ Return to Table of Contents](#)

Scope and Content

Additionally, some reference material is included in the collection and may be of interest to researchers in general. This includes Kings Views of New York 1911-1912 and a block and lot book of Manhattan. A scrapbook containing clippings of some of the work of Reed & Stem and Fellheimer & Wagner provides additional information on the early work of the firm.

possible rezoning and development plans for the
entire acreage of Twombly; assessment includes
maps, zoning proposals, lists existing structures, etc.

Warner-Lambert Pharmaceutical Company,
Administration Building (Morris Plains, NJ), 1955

box 4

folder 13

Scope and Contents

1 album of proposed structure, includes plans, renderings, site plans, mechanical systems, and photographs

Carbide and Carbon Chemical Company, laboratory (South Charleston, WV), 1956

box 4

folder 14 to 15

Scope and Contents

Two copies of report, includes plans, sections, renderings, and mechanical systems; 2 loose photos and 2 loose clippings originally attached to pages, see interfolder for locations

Carbide and Carbon Chemicals Company, engineering building, alternative locations (South Charleston, WV), 1956

box 4

folder 16

Scope and Contents

1 report, includes analysis of 4 schemes for proposed structure with diagrammatic site plans

Carbide and Carbon Chemicals Company, engineering building (South Charleston, WV), 1956

oversize 3

folder 2

Scope and Contents

1 report, includes plans, sketches, renderings, sections

Haynes Satellite Company, general office building (Kokomo, IN), 1956

box 4

folder 17

Scope and Contents

1 report, includes plans, elevations, sections

Haynes Satellite Company, general office building (Kokomo, IN), [1956?]

box 1

folder 13

Scope and Contents

1 photograph of rendering

Carbide and Carbon Chemicals Company, joint cafeteria building (Ward Hollow Technical Center, South Charleston, WV), 1957

box 4

folder 18 to 19

Scope and Contents

Two copies of report, includes plans, sections, and elevations, and a general description of the structure

Carbide and Carbon Chemicals Company, joint cafeteria building (Ward Hollow Technical Center, South Charleston, WV), [1957?]

box 1

folder 14

Scope and Contents

2 photographs of rendering, interior and exterior

Central repair shop and garage, capital project S-134 (Queens, NY), 1958	oversize 7	folder 6
Scope and Contents		
Report includes extensive plans, elevations, sections, renderings, specifications, a cost estimate, and mechanical systems
