Summary Information

Repository:	Avery Architectural and Fine Arts Library
Creator:	Taliesin Associated Architects
Creator:	Peters, William Wesley
Title:	Taliesin Associated Architects architectural drawings and records
ID:	11596099
Date [inclusive]:	1959-1991
Physical Description:	400 linear feet
Physical Description:	33,000 drawings approximate
Language of the Material:	English .
Abstract:	The collection includes the project files and architectural drawings of the Taliesin Associated Architects, the firm that was established after the death of Frank Lloyd Wright in 1959. Projects include commissions that were left on Wright's desk at the time of his death as well as independent commissions and renovation work. Over 1,000 architectural projects are represented either in the paper records, the architectural drawings, or both.

[^ Return to Table of Contents](#)

Biographical sketch

Architectural firm founded by Frank Lloyd Wright to carry on his architectural vision after his death in 1959.

[^ Return to Table of Contents](#)

Summary

The collection consists of the project and administrative records of the Taliesin Associated Architects, the architecture firm established after the death of American architect Frank Lloyd Wright in 1959. Over 1,000 architectural projects are represented in the collection, ranging from residential commissions to larger civic and urban planning projects.

Publication Statement

Avery Architectural and Fine Arts Library

Restrictions on Access

This collection is available for use by appointment in the Department of Drawings & Archives, Avery Architectural and Fine Arts Library, Columbia University. For further information, please email avery-drawings@library.columbia.edu.

Terms Governing Use and Reproduction

Columbia University is providing access to the materials in the Library's collections solely for noncommercial educational and research purposes. The unauthorized use, including, but not limited to, publication of the materials without the prior written permission of Columbia University is strictly prohibited. All inquiries regarding permission to publish should be submitted in writing to the Director, Avery Architectural and Fine Arts Library, Columbia University. For additional guidance, see Columbia University Libraries' publication policy.

In addition to permission from Columbia University, permission of the copyright owner (if not Columbia University) and/or any holder of other rights (such as publicity and/or privacy rights) may also be required for reproduction, publication, distributions, and other uses. Responsibility for making an independent legal assessment of any item and securing any necessary permissions rests with the persons desiring to publish the item. Columbia University makes no warranties as to the accuracy of the materials or their fitness for a particular purpose.

Processing Information

The collection was originally catalogued and organized by Elizabeth Dawsari at the Frank Lloyd Wright Foundation. The collection was re-inventoried and rehoused by Paul Guidos (Student Assistant) in various stages between the years 2016 and 2021. Shelley Hayreh (Archivist & Collection Manager) converted the various inventories into this finding aid in 2021.

Collection Inventory

Series I: Architectural Drawings

Scope and Contents

This is the largest series in the collection. Given its large extent and the hundreds of projects represented, the series has been divided into subseries based on project type (residential, religious, office, retail, etc.) Within each subseries, the projects are arranged in alphabetical order by first letter in the project title. The largest subseries is Subseries 1: Residential. When the information was available, the project number and the lead designer are included in the description of the project.

Architectural drawings for the following projects were given their own series (listed below) due to the large extent of drawings for each project: Arizona Biltmore, Arizona State University, Marin County, and Monona Basin.

Subseries 1: Residential

Title/Description	Instances	
A House For Life	drawer 171	folder TAA0415
"A Desert Home"	drawer 171	folder TAA0413
Affordable Housing Project for Ross Roll (Chandler, Arizona).	drawer 176	folder TAA0619

[^ Return to Table of Contents](#)

Series III: Project Records

Scope and Contents

This is the second largest series in the collection. The files were referred to as "Dead Files" at Taliesin West. The project records typically include correspondence, contracts, reports, contractor paperwork and publicity material. The series is arranged by project in alphabetical order by the first letter of the project title. When the information was available, the project number is included in the project title. The file description in this finding aid were maintained from a legacy database acquired by the Frank Lloyd Wright Foundation. Files have not been verified by staff at Avery Library.

Project records for the following projects were given their own series (listed below) due to the large extent of records for each project: Arizona Biltmore, Arizona State University, Marin County, and Monona Basin.

Series IV: Administrative and Miscellaneous Records

Scope and Contents

The files in this series formed what was referred to as "Dead Files" at Taliesin West. The "Dead Files" have been separated in this collection into two series" Project Records and Administrative and Miscellaneous Records. Files in this series were not explicitly related to a project and therefore separated out of the Project Record series. The file description in this finding aid were converted from a legacy database acquired by the Frank Lloyd Wright Foundation. Files have not been verified by staff at Avery Library.

Subseries 1: General Files
