Biographical sketch

Frank Lloyd Wright (1867-1959) was an American Architect internationally recognized for his innovative building design, Taliesin school and fellowship, and philosophy of "organic architecture."

Scope and Content

In the 1980s, the FLLW Foundation gave each Wright project a job number, which we use in the archive to refer to the various projects. The drawings are arranged chronologically by project (with each series representing a decade of Wright's career), starting in 1885 with Wright's student drawings (#8501) and ending in 1959 with a design for an unbuilt Art Gallery at Arizona State University (#5917). The finding aid lists each project with its associated drawing extents. Some projects may only contain one drawing, like the Isabel Roberts house in River Forest, Illinois (#0808); while others projects are represented by hundreds of drawings, like the Guggenheim Museum (#4305), which has almost 800 drawings.
