## Historical note

---

In the summer of 2019, as the School of Engineering's Office of Alumni and Development was getting ready to vacate their office space for a renovation, they reached out to the University Archives about a box of "old records." The box was labeled "Representative Student Folders. 20's, 30's, 40's. Many special names." There was no information available about when the folders were collected, how they were selected, or for what purpose. The University Archives does not collect student files but this small collection offered a glimpse into the School during and immediately after the war years.

---

## Scope and Contents

---

These folders were kept by the School of Engineering's Office of the Dean. Each file includes information about a student's admission, financial aid, student activities, academic progress, general correspondence during the student's days and as alumnus/a, and copies of high school and Columbia unofficial transcripts. The students are both undergraduates and graduates; some received a degree, some withdrew; some were new to college, others were transfer students, and even others were readmitted to the program. There are students who joined the service, some were V-12 students and others Public Law 16. There are even a couple of folders of women students who were admitted to the School of Engineering in starting in 1943. Most folders include a copy of the student's official photograph.

## Arrangement

---

This collection is arranged in one series. Files are arranged in alphabetical order by the student's last name.
