## Biographical / Historical

---

Max Abramovitz was born in Chicago, Illinois in 1908 to a Romanian Jewish immigrant family. Abramovitz received his B.S. from University of Illinois, Urbana-Champaign in 1929. In 1931, he received his M.S. from Columbia University's School of Architecture. His education continued on fellowship at the École des Beaux-Arts in Paris from 1932-1934.

Abramovitz's architectural career began in 1935 when he was employed as an associated at Wallace Harrison's firm, Harrison & Fouilhoux. By 1941, Abramovitz became a partner in the firm, with the practice changing its name to Harrison, Fouilhoux & Abramovitz. After the death of J. André Fouilhoux, the firm was renamed Harrison & Abramovitz (active from 1945-1975). Later partnerships included Abramovitz-Harris-Kingsland from 1976 to 1985, and Abramovitz-Kingsland-Schiff from 1985-1992.

Outside his professional practice, Abramovitz served as a Lieutenant Colonel in the United States Army Corps of Engineers during World War II. During the war, Abramovitz designed military installations in China. He received the Legion of Merit Award for Service in China in 1945. From 1950-1952, Abramovitz was a Colonel for the Unnited States Air Force. In 1952, he served as Special Assistant to the Assistant Secretary of the United States Air Force.

Abramovitz was married to Anne Marie Causey in 1937. They had two children. After their divorce in 1964, Abramovitz married Anita Zeltner Brooks. He died in Pound Ridge, New York in 2004 at the age of 96.

**Series III: Project Records**

**Scope and Contents**

The Project Records are divided into four sub-series: Project Files, Financial Records, Shop Drawings, and Specifications. Within each sub-series, the records are arranged by project in geographically order by state and then city. Additionally, projects within New York are listed under the state, then city. Domestic projects are listed first, followed by international projects. Projects with no specified location are listed last.

The records found in this series tend to be technical and do not document the design process.

**Subseries 1: Project Files****Scope and Contents**

Files for approximately 50 projects, which range in date from ca.1973 to ca. 1986. Project names were taken from labels taped to the outside of cabinets. Before boxing for ReCAP, this material was not processed and thoroughly checked against the labels. In most cases, where there was a lot of material, the labels matched the contents of the drawers. Some projects were not confirmed at the time of re-boxing.
