## Biographical sketch

---

Mary Woodard Lasker (1900-1994), civic worker and philanthropist, was a businesswoman prior to her marriage in 1940 to the advertising executive and philanthropist, Albert Davis Lasker (1880-1952). With her help, Lasker re-ordered his life and priorities. Together they shared a life centering on philanthropic work. They founded the Albert and Mary Lasker Foundation which gives awards in the fields of medical research and public health administration. Mary Lasker had a strong interest in the arts, civic beautification, reproductive planning, dress design, and health issues, specifically cancer and heart disease. She was actively involved with the promotion and development of national bodies dealing with cancer, heart disease, arthritis, mental health, neurological disease, and blindness. She was an able and effective Washington lobbyist and knew many statesmen, legislators, artists, and scientific pioneers. Lasker was decorated as a Chevalier Officer of the French Legion of Honor and, in 1969, she received the Presidential Medal of Freedom.

---

## Scope and Content

---

The collection consists of correspondence, memoranda, reports, bulletins, clippings, photographs, awards, and printed material. The files, arranged by genre and topic and reflect her philanthropic and legislative work in the areas of health, specifically cancer, heart disease, and mental health. Her civic and legislative work is covered in detail, as well as her private interests and activities.
