Restrictions on Access

The following boxes are located off-site: Boxes 1-346. You will need to request this material from the Rare Book and Manuscript Library at least three business days in advance to use the collection in the Rare Book and Manuscript Library reading room.

Restrictions on Access

Certain files have been closed by the United Nations, by special order of the Secretary-General.

Restrictions on Access

During March 1991, the status of all materials which had previously been closed to the public was reviewed with respect to the declassification policies outlined in the two letters from U.N. Chief Archivist Alf Erlandsson. Under these guidelines, code cables, items captioned "Top Secret" or "Strictly Confidential" and certain personal records remain closed.

Restrictions on Access

In May 2016, The United Nations declassified the entire contents of Boxes 175-184. These materials are now available for research use. In August 2024, the contents of boxes 104-108 were opened, with the exception of one folder in box 107 that remains restricted. In January 2025, select cables in box 125 were opened.

Restrictions on Access

In most cases, materials for which restrictions remain in force have been removed from the regular collection and placed in specially marked boxes at the end of the series. The only exception to this practice involves boxes which contain restricted materials exclusively. These have been sealed with red string and left in sequence with the rest of the collection.

Restrictions on Access

In the box list, those subject folders from which restricted materials have been removed are marked with an asterisk (*). In addition, dummies have been placed in those folders explaining the nature and quantity of the restricted materials removed. Sealed boxes (containing only restricted materials) are indicated with a number sign (#).

Terms Governing Use and Reproduction

Reproductions may be made for research purposes. The RBML maintains ownership of the physical material only. Copyright remains with the creator and his/her heirs. The responsibility to secure copyright permission rests with the patron.

Scope and Contents

Period covered 1946 -1962)(Correspondence files). These files contain texts where available. However as many talks were given extemporaneously there is often no record on file. This does not mean that a transcript does not exist somewhere. (2) Unless otherwise specified the quotes in the following list indicate the topic of Mr. Cordier's talk. (3) In preparing this list I was not able to exhaustive research on each file so that there may be some gaps as to place, topic, etc. There may also be some errors as I did not proof read this list with anyone.
