### Revision Description

File created. Finding aid arrangement revised by Celeste Brewer to consolidate materials of similar formats from multiple accessions into the same series, and to eliminate duplicated box numbers. EAD was imported spring 2019 as part of the ArchivesSpace Phase II migration. 2009-06-26 2019-02-11 2019-05-20

Some unique time-based media items have been reformatted and are available onsite via links in the container list. Commercial materials are not routinely digitized. Email [rbml@columbia.edu](mailto:rbml@columbia.edu) for more information.

### **Processing Information**

The collection was originally arranged in eleven series. Three of these series were composed of correspondence, two were composed of audiotapes, and four were composed of manuscripts. The system of box numbering started over again after Box 23, and three card file boxes were not numbered. Rare Book and Manuscript Library staff also individually catalogued two boxes of correspondence, as well as a handful of manuscripts and other items.

### **Processing Information**

In 2019, the collection's arrangement was altered to reduce the number of series to five, and to intellectually group materials with similar formats and subject matter together. Box numbers were changed to a single series of consecutive numbers.
