## Summary Information

---

<b>Repository:</b>	Rare Book and Manuscript Library
<b>Creator:</b>	Golden, William T., 1909-2007
<b>Title:</b>	William T. Golden papers
<b>ID:</b>	7401114
<b>ID:</b>	MS#1508
<b>Date [inclusive]:</b>	1946-2008
<b>Physical Description:</b>	33 linear feet 30 record cartons; 6 document boxes; 2 cassette boxes; 1 folder in a mapcase 15-H-11
<b>Language of the Material:</b>	English .
<b>Abstract:</b>	Correspondence, articles, clippings, reports and memos related to William T. Golden's professional career.

### Preferred Citation

Identification of specific item; Date (if known); Name of Collection; Box and Folder (if known); Rare Book and Manuscript Library, Columbia University Library.

---

## Biographical Note

---

William T. Golden was a securities analyst, a philanthropist and a main architect of American science policy in the 20th century. Both his philanthropic and policy work focused on supporting scientific research both through government research agencies and policies, and nonprofit scientific and research institutions.

[^ Return to Table of Contents](#)

---

## Biographical Note

---

William T. Golden was born on Oct. 25, 1909, in Manhattan. He attended the University of Pennsylvania as a young man, earning a bachelor's degree in English in 1930, and then heading to Harvard Business School. After leaving Harvard, Golden returned to New York City where he worked as a securities analyst on Wall Street. The work proved sufficiently lucrative to allow Golden to build a second career as a philanthropist and architect of American scientific policy.

[^ Return to Table of Contents](#)

---

## Biographical Note

---

He was an advisor to President Harry S. Truman and originated the idea of a Science Advisor to the President, as position that was created in 1957 at his suggestion. Golden was a major force in creating the major government agencies that manage U.S. scientific research and policy; he was instrumental in organizing the National Science Foundation and acted as assistant to one of the Commissioners of the Atomic Energy Commission. In 1991 he, as co-chairman of the Carnegie Commission on Science, Technology and Government, inaugurated a series of biannual meetings of science advisors from the G7 nations.

[^ Return to Table of Contents](#)

---

## Biographical Note

---

Though Golden was an important force in encouraging a stronger role for the federal government in scientific research, he was also actively involved in research and philanthropy in the private sphere. He sat on the board of organizations as diverse as the American Museum of Natural History and the National U.S. Radiator Corporation. He served on the board of trustees for the Carnegie Institute of Washington, now the Carnegie Institution for Science, for 28 years.

[^ Return to Table of Contents](#)

---

## Biographical Note

---

Golden retained his passion for knowledge throughout his life. He returned to school in 1979, at age 70, to earn a Master's degree in biology from Columbia University, and published books and articles on scientific policy throughout most of his life. He died in 2007 at the age of 97.

[^ Return to Table of Contents](#)

---

## Summary

---

Correspondence, articles, clippings, reports and memos related to William T. Golden's professional career.

[^ Return to Table of Contents](#)

---

## Arrangement

---

This collection is arranged in 4 series.

## Collection Inventory

---

### Series I: Alphabetical Files, 1947-2007

#### Scope and Contents

The alphabetical files series comprises the bulk of the collection and contains Golden's files related to all aspects of his professional work, including records related to the many boards and advisory councils on which he sat, including the Carnegie Institute of Washington, the American Association for the Advancement of Science, and the American Museum of Natural History. These files include correspondence, reports, and related files. The series also includes records relating to the Black Rock Forest Consortium, which Golden founded.
