Summary

The István Deák Papers document his professional life, with a particular focus on his work during the 1980s and 1990s. The majority of the papers are comprised of articles, essays, conference programs and lectures. There are also two large groups of research notes, one set of research contributing to his PhD dissertation on intellectuals in the Weimar Republic, the other a large collection of data sheets related to Hungarian soldiers in the Habsburg Army. The collection is intellectually arranged by series, including scholarly writing, teaching and administrative activities, conferences and lectures, and research notes in two sections. However, the collection retains its original physical order reflecting Deák's arrangement of the files. Many of the original folders with Deák's extensive notes have also been retained and kept with the files they originally held.

Arrangement

The collection is arranged in five series.
